

Connect your Magento 2 store to Printful

In order to integrate this solution, you need to have a Magento store and Printful account.

If you don't have a Printful account. Please go to our website and [create your free account](#).

Follow these steps to connect your Magento 2 store to your Printful account:

1. Upload the Printful module to Magento

1. Create your Magento store

Download Magento Open Source and set up hosting; you can use [SiteGround](#) for this.

Note that the Printful module only works with Magento 2.

2. Download the Printful module for Magento from printful.com

3. Download an FTP (File Transfer Protocol) client

The only way you can upload the Printful module to Magento is with an FTP client, which lets you connect your computer to your hosting server and add files manually. A popular FTP client is [FileZilla](#).

4. Use your FTP client to upload the module files to the /app/code directory

Log in to your FTP client. To do this, you will need your new your server ID, username, and password. This is provided by your hosting provider, so you can find it there. If you don't have this info, contact your system administrator.

Then, go to `public_html > app > code` and add the Printful module folder. If this is your first module, then you may need to create the code folder yourself.

Filename	Size	Modified
public_html		-- Yesterday, 19:15
app		-- Yesterday, 19:20
autoload.php	1.2 KB	14/03/2019, 23:12
bootstrap.php	2.5 KB	14/03/2019, 23:12
code		-- Today, 15:21
Printful		-- Yesterday, 19:21
Integration		-- Yesterday, 19:21
composer.json	475 B	Yesterday, 19:21
etc		-- Yesterday, 19:21
README.MD	3.5 KB	Yesterday, 19:21
registration.php	160 B	Yesterday, 19:21
Setup		-- Yesterday, 19:21
design		-- 14/03/2019, 23:12
etc		-- Yesterday, 19:17
functions.php	779 B	14/03/2019, 23:12
auth.json.sample	234 B	14/03/2019, 23:12
bin		-- 14/03/2019, 23:12

2. Enable and authorize the Printful module

1. Find the Printful module and enable it

In your Magento store, go to System > Web Setup Wizard > Module Manager and select the Printful module. Then, go through the installation flow by following the prompts.

Available modules 206 modules 20 per page 1 of 11

Component Name	Module Name	Version	Vendor	Action
amzn/amazon-pay-and-login-with-amazon-core-module	Amazon_Core	3.1.4	Amzn	Select
amzn/amazon-pay-module	Amazon_Payment	3.1.4	Amzn	Select
amzn/login-with-amazon-module	Amazon_Login	3.1.4	Amzn	Select
dotmailer/dotmailer-magento2-extension	Dotdigitalgroup_Email	3.1.1	Dotmailer	Select
klarna/module-core	Klarna_Core	5.1.0	Klarna	Select
klarna/module-kp	Klarna_Kp	6.1.0	Klarna	Select
klarna/module-ordermanagement	Klarna_Ordermanagement	5.0.3	Klarna	Select
printful/module-printful-integration	Printful_Integration	1.0.0	Printful	Select
magento/module-admin-notification	Magento_AdminNotification	100.3.1	Magento	Enable

2. Authorize and connect the module with a new or existing Printful account

In your Magento store, go to System > Integrations > Printful > Activate.

Name	Status			
PrintfulIntegration	Active	Authorize		

Click Allow.

PrintfulIntegration ✕

[Allow](#)

The integration you selected asks you to approve access to the following:

- API
 - Sales
 - Catalog
 - Inventory
 - Products
 - Categories
 - Customers
 - Stores
 - Settings
 - All Stores
 - Inventory
 - Stocks
 - Edit Stocks
 - Taxes
 - Attributes
 - Product
 - Update Attributes
 - Attribute Set

Then, connect your new or existing Printful account.

3. Create Products

Once your Printful account is connected to your Magento store, you need to add your products. There are two ways to do this.

1. Product Push Generator

Create a product in Printful by clicking “add” next to your store in the Printful Dashboard. After designing your product, adding your price and picking our product category and tax rate, it automatically gets uploaded to your store and synced with Printful!

2. Manual Sync

Create the product you want to sell on your Magento store. Then, head to Printful Dashboard > Stores > Sync. Sync your Magento listings to actual Printful products by uploading print files.

That's it. You're done! Now your new Magento orders will be automatically imported into Printful.
